

PRESS RELEASE

ELICA S.p.A. BOD APPROVES Q4 ADDITIONAL PERIODIC DISCLOSURE AND 2020 PRELIMINARY CONSOLIDATED RESULTS:

**Q4 2020 REVENUE OF EURO 143.7 MILLION (+15.8% VS Q4 2019)
SIGNIFICANT PICK-UP ALREADY EMERGING BY Q3 2020 CONFIRMED
DRIVEN BY COOKING SEGMENT
BOTH FOR OWN BRAND (+18.6%) AND OEM (+13.9%) SALES**

**MARGINS SIGNIFICANTLY UP IN Q4 2020
THANKS TO REVENUE GROWTH, COST-CUTTING MEASURES AND EVER MORE
FLEXIBLE BUSINESS MODEL**

2020 preliminary consolidated financial highlights:

- Revenue: Euro 452.6 million, -5.7% on the previous year (-4.4% net of the currency effect) due to COVID-19 and the lockdown, particularly in the second quarter of the year. Significant pick-up already emerging by Q3 2020 confirmed and consolidated in the final period of the year (+15.8% against Q4 2019, +19.0% net of currency effect), both due to higher volumes and a positive price-mix effect.
- The Cooking segment overall declined 6.6% (-2.1% own brand sales and -11.4% OEM), mainly due to the drop in volumes in April, with a recovery by Q3 2020 and double-digit growth in Q4 - both for own brand sales of 18.6% (+22.4% net of the currency effect) and for the OEM channel of 13.9% (+17.1% net of the currency effect). Own brand sales now account for 55% of Cooking segment sales (56% in Q4 2020).
- The Motors segment, thanks to significant Q4 growth (+11.4% on Q4 2019), fully recovered the slowdown in demand in March and Q2, closing up 0.3% on 2019.
- The EMEA and Americas markets saw significant recoveries from Q3, with further consolidation in Q4 2020 (+18.0% and +6.8% on Q4 2019). The Asian market, which in the third quarter was again impacted by the COVID-19 health emergency, significantly recovered in the final part of the year (+14.1% on Q4 2019).
- Adjusted EBITDA¹: Euro 42.2 million, down 6.3% on Euro 45.0 million in 2019, due to COVID-19 and the Q2 2020 lockdown. The margin on revenue was 9.3%, substantially in line with the previous year (9.4% in 2019). The revenue growth and consistent focus on cutting operating and SG&A costs strongly drove the margin to 12.0%, +190 bps on the same period of 2019 (+38.0%).
- Adjusted EBIT¹ of Euro 15.9 million (Euro 19.6 million in 2019), with a margin on revenue of 3.5% (4.1% in 2019). The EBIT margin in Q4 2020 rose to 6.2%, from 4.6% in Q4 2019.

¹ The figure for 2020 was adjusted considering the extraordinary effect related to Brazil for Euro 0.7 million, related to the closure of the dispute with Esperança Real S/A (Brazil) and other restructuring charges of Euro 2.6 million. The adjustment to the 2019 result concerns the extraordinary charge for the departure of the Chief Executive Officer of approx. Euro 1.3 million, and to a lesser extent other restructuring charges for a total of Euro 2.6 million. In terms of EBIT, the 2020 figure was adjusted also considering the extraordinary effect of intangibles write down for Euro 1.8 million.

- The Adjusted Net Profit was Euro 8.5 million, compared to Euro 9.3 million in 2019. The Adjusted Group Net Profit was Euro 2.6 million, compared to Euro 5.0 million in 2019. The Minorities profit of Euro 5.9 million increased on Euro 4.3 million in 2019, mainly due to the flexibility of Elica's business model in India and Japan, which has protected margins despite pressure on revenue. The 2020 Net Result was impacted by the lockdown in Q2, while in Q4 2020 the strong operating performance and the reduction in financial expense significantly boosted the Adjusted Group Net Profit (Euro 3.7 million compared to Euro 0.6 million in 2019).
- Net Financial Position²: Euro -51.4 million (excluding IFRS 16 effect for Euro -9.7 million), compared to Euro -47.2 million at December 31, 2019. The increase, partially contained by a 37% decrease in CAPEX, was mainly due to the Q2 EBITDA impact on operating cash generation and to a one-off cash-out of Euro 4.9 million, mainly for the settlement between Elica S.p.A. and Esperança Real S/A (Brazil) in July 2020 and an additional Euro 2.6 million of restructuring costs in Italy and China.
- COVID-19 update:
 - In order to effectively handle the COVID-19 emergency, the Elica Group immediately put in place all available worker protection measures and set up a Crisis Committee to monitor the developing situation. This Committee meets periodically and coordinates daily with the Leadership Team.
 - Since April 23, 2020, the company has begun to reopen in a gradual manner the factories in the Marche region - at Mergo and Cerreto - which were closed from March 24, 2020 following the imposition of restrictions by the government through the Prime Minister Decree of March 22, 2020. The Castelfidardo facility (Motors division), as covered by a permitted ATECO code, was however authorised to continue its operations and therefore was not subject to closure. The Polish facility has been operative since April 19, with the Mexican facility resuming from June 1 and the Indian plant from May 18. All production facilities are currently at full capacity.
- ESG update:
 - The average number of blue collars training hours increased from 9.8 in 2019 to 10.7 in 2020 (+9.2% vs 2019);
 - The LTI-Long Term Incentive plan involved for 24% the less represented gender (vs 5% in 2019);
 - The executives waived the 2020 bonus and middle management contributed by waiving the 50% of the nominal amount due;
 - All our sites of the Cooking Business Unit (Fabriano, Mergo and Cerreto d'Esì) have obtained ISO 45001: 2018 certification. The number of injuries in Italy decreased from 6 in 2019 to 1 in 2020 (-83%);
 - The Customer Orientation of our After Sales Service has been recognized by our customers, allowing us to obtain an important sector recognition awarded by the German Institute for Quality and Finance;
 - Elica was able to efficiently use the energy resources in the production processes and to reduce emissions (reduction in the Italian and Polish sites of kWh / machine hours between 2% and 4% compared to 2019).

² The value indicated is net of the IFRS 16 effect, as outlined in the reconciliation tables.

Fabriano, February 12, 2021 – The Board of Directors of **Elica S.p.A.**, the parent of a Group that is the leading manufacturer of kitchen range hoods, today approved in Fabriano the additional periodic disclosure for Q4 2020, prepared in accordance with IFRS, and noted the 2020 preliminary consolidated results.

*“We have continued to build on the already very strong progress in the previous quarter across all business segments. In particular, the **Cooking Division** continues to expand, both in terms of own brand sales - driven by the excellent performances on the European and American markets - and OEM sales. The Nicola Tesla product drove the top-end range, growing 49% in the quarter and 23% on an annual basis. The **Motors Division** in the final quarter also saw a further recovery, managing to substantially close in line with the previous year”. **Mauro Sacchetto, Chief Executive Officer of Elica stated** – “We have continued to work on cost efficiencies, improving the margin further, while focusing investment on priority projects and product innovation. Despite the impacts of the pandemic, we report a net financial position in line with the previous year. All our strategic projects continue in line with expectations, supporting the medium/long-term growth objectives and improving margins and cash generation”.*

Elica Group Operating Performance

Elica for 2020, due to the drop in sales volumes in March and in Q2 due to the COVID-19 emergency and the consequent lockdown, reports **Consolidated revenue of Euro 452.6 million**, -5.7% on 2019 (-4.4% at like-for-like exchange rates).

Market dynamics have progressively been impacted by the COVID-19 emergency. Global kitchen hood segment demand is estimated to contract 7.4%³ in 2020. This downturn impacted all markets. Asia saw a 9.3% decline amid divergent performances across the region. China for example in Q4 2020 saw growth ahead of expectations, closing 2020 with a partial recovery. Japan's recovery slowed following a fresh rise in infections. Finally, India demonstrated itself to be more resilient than expected and saw a small recovery in the final part of the year. The decrease in the EMEA region (-4.2%) in particular reflects the impact of the pandemic in Western Europe and in economies with a greater tourism focus - despite a strong second half of the year - while in Eastern Europe the significant recovery in the fourth quarter almost completely offset the decline in the initial part of the year. The American market was down 8.8%, although with the recovery in the second half of the year partially slowed - both in the US and in Brazil - by increases in infections at the end of 2020.

Own brand sales were down 2.1% on 2019, particularly as a result of the drop in April, while a quick recovery was already apparent by May 2020, with a further consolidation in Q3 and Q4 (+18.6% in Q4 2020 compared to the same period of 2019, +22.4% net of the currency effect). The Nicola Tesla product accounted for 9% of total revenue in 2020. Own brand sales on the Cooking segment accounted for 55% in 2020.

OEM revenue was down 11.4% on the same period of the previous year (-10.2% at like-for-like exchange rates), particularly following the closure of the Mexican facility for nearly 2 months and partially offset by a recovery in Q2 2020 (+13.9% in Q4 2020 against Q4 2019, +17.1% at like-for-like exchange rates).

³ Source: Elica Group, internal estimates

The **Motors** segment, representing 13.5% of total revenue, was impacted by slowing demand in March and Q2. This reduction was totally offset by the strong performance in the final quarter (+11.4% in Q4 2020 compared to the same period of 2019), resulting in an increase of 0.3% in 2020 compared to 2019.

Adjusted EBITDA of Euro 42.2 million was down 6.3% on the same period of 2019 (Euro 45.0 million), with a margin on revenue of 9.3% (9.4% in 2019). The revenue growth, together with operating efficiencies in terms of personnel expense, SG&A costs and Opex, supported an improvement in margin on revenue in Q4 2020 to 12.0% (+38.0%, +190 bps compared to the same period of 2019).

Adjusted EBIT of Euro 15.9 million in 2020 (Euro 19.6 million in 2019), with a significant recovery in Q4 (+55.1%, +160 bps in terms of EBIT margin compared to Q4 2019).

Net financial expense was Euro 4.0 million, reducing on Euro 5.1 million in 2019.

The **Adjusted Net Profit** was Euro 8.5 million, compared to Euro 9.3 million in 2019. The Adjusted Group Net Profit was Euro 2.6 million, compared to Euro 5.0 million in 2019. The Group Tax Rate is affected by the low profitability of the Italian Entity. The Minorities profit of Euro 5.9 million, improving on Euro 4.3 million in 2019, mainly reflects the flexibility of the Elica Group's business model in Japan and in India where, against revenue pressure, the margin did not suffer significant impacts.

The **Adjusted Group Net Profit in Q4**, thanks to the strong operating performance and reduced financial expense, was up significantly to Euro 3.7 million (compared to Euro 0.6 million in 2019).

The **Group Net Result** was a loss of Euro 1.8 million, compared to a profit of Euro 3.1 million in 2019.

Outlook

The company continues to analyse the impact of COVID-19 on the business and the market demand recovery curve, which is currently difficult to forecast. The key points are:

- focus on cost containment measures and financial sustainability;
- solid fundamentals to adequately respond to the current recovery in demand and expected medium-term developments.

The Group has outlined the pillars of its growth strategy:

- focus on boosting EBITDA margin and cash flow generation;
- expanded own brand sales portfolio and market share;
- sustainable research and development investment;
- geographical expansion.

These actions relate to the internal reorganisation, which is laying the foundations for an additional acceleration over the coming three years and a strong managerial team.

Statement pursuant to Article 154-bis, paragraph two, of the Consolidated Finance Act

The Executive Officer for Financial Reporting Mr. Giulio Cocci declares, pursuant to Article 154-bis, second paragraph of Legs. Decree No. 58/98, that this press release corresponds to the underlying accounting documents, records and accounting entries.

The Elica Group has been active in the kitchen hood and stoves market since the 1970's. Chaired by Francesco Casoli and led by Mauro Sacchetto, today it is the world leader in terms of units sold. It is also a European leader in the design, manufacture and sale of motors for central heating boilers. With approx. 3,700 employees, the Elica Group has seven plants, including in Italy, Poland, Mexico, India and China. With many years' experience in the sector, Elica has combined meticulous care in design, judicious choice of materials and cutting edge technology guaranteeing maximum efficiency and reducing consumption, making Elica the prominent market figure it is today. The company has revolutionized the traditional image of the kitchen cooker hood: it is no longer seen as simple accessory but as a design object which improves quality of life.
