Intro

Elica, an innovative Italian company at the forefront of the design and manufacture of kitchen appliances. With over 50 years of experience, it stands as a global leader in the design and manufacture of kitchen extraction systems.

A European reference in electric motors for household appliances and boilers. With approximately 2,600 people at its headquarters in Fabriano and at its seven production sites in Italy, Poland, Mexico and China, Elica embodies the essence of industrial excellence.

These key figures, successfully achieved under the continued guidance of Francesco Casoli, Elica's Chairman, are the result of Elica's continuous commitment to innovation and progress. Elica's success is driven by corporate values that have always pervaded every aspect of the company: design, which seamlessly combines aesthetics and performance for an exceptional cooking experience; art, which inspires creative processes and working methods and innovation translated in high technology capable of enhancing product features.

Extraordinary Cooking

Extraordinariness is an attitude

After fifty years in the air extraction system sector, Elica's iconic attitude for challenging the ordinary has led it to mark an important step in its evolution path, entering the cooking sector. A journey started in 2016, with the launch of the NikolaTesla extractor hobs line, that Elica is continuing nowadays with increasingly beautiful, functional and user-friendly appliances and solutions.

Extraordinary cooking. Being extraordinary is an mindset, a philosophy that celebrates originality and the courage it takes to be and act 'differently'. It is the essence of pioneer thinking, an engine that every day sparks new ideas, opportunities and experimentation. Being extraordinary doesn't mean being eccentric or anti-conformist, yet it is the ability to think outside the box in order to create value and beauty.

Extraordinary is the 'art of shaping the future', both in the kitchen and in everyday life, masterfully represented by Elica's relentless commitment to creating unique and memorable experience.

LHOV

The shape
of Extraordinary.

Lhov

The shape of Extraordinary.

Oven, hob and kitchen hood together for the first time ever, featuring professional-inspired performance and an outstanding design. An all-in-one appliance designed to revolutionise and enhance every cooking experience, making it extraordinary.

Space Reshaper.

The innovative design of this one-of-a-kind appliance perfectly integrates into kitchen units, thus making the best use of spaces and enhancing kitchen style.

Odour Stopper.

No more hot steam when you open the oven door. Its revolutionary extraction core gets rid of fumes and odours not only from the hob, but also from the oven for the first time ever.

Oven Hero.

The oven is 30 % wider than other products in its category for cooking smaller portions of dishes in bulk or using two baking trays side by side. You can combine traditional cooking methods with steaming, as well heat up only half of the grill to save on energy. Thanks to its automatic cooking programmes, you only need to select what you want to cook: the oven will do all the rest.

Smart Control.

The digital display is ergonomic, interactive, connected. And intuitive, just like a smartphone. It allows you to control all of the appliance features with a simple touch.

Over the Hob.

An extractor hob that surpasses the highest standards in its category: this is the first extractor hob with 5 cooking zones. They are powerful, combinable, for cooking in large pots, equipped with automatic functions.

CAPPE

Haiku & Haiku Dry

Depth and aesthetics
as you desire.

Wall-mounted and island hoods with innovative connection and features. The wall-mounted models are depth-adjustable; the island models enhance the design of any kitchen.

Iconic and elegant design.

Beautiful, aesthetically dramatic, very easy to clean: the design of Haiku kitchen hoods ensures perfect, seamless integration with any kitchen furniture.

Depth-adjustable, always in line.

The wall-mounted versions are adjustable from 32 to 38 mm to fit every project down to the millimetre. And to always be in line with the cabinets.

Maximum power, minimum noise.

The extraction system is extremely powerful, in every model. Whisper-quiet and low consumption even on the highest power setting.

Anti-condensation system.

Available in the Dry version, this system prevents water from dripping onto the hob, so it always stays dry.

Energy efficiency and long life filters.

These hoods are equipped with filters designed to last up to 3 years; the cutting-edge motor is up to 70% more energy efficient than conventional motors.

Wi-Fi Connectivity.

The Dry model is Wi-Fi enabled for use via the Elica app (to monitor the condition of the filters and contact our service centre) or a voice assistant, to control it from anywhere.

Illusion

The beauty of being unnoticed.

A powerful and unobtrusive kitchen hood, flush with the ceiling, designed to almost invisibly blend into any kitchen setting.

Adaptable and customisable design.

A hood that frees up space above the hob, perfect for small kitchens. The panel can be customised with plasterboard to match the ceiling's finish.

Smart extraction.

The powerful extraction system automatically switches on and adjusts the power levels based on the cooking zones in use. And it switches off automatically once the air is clean.

Wi-Fi Connectivity.

This hood is Wi-Fi enabled for use with the Elica app (to monitor the condition of the filters and contact our service centre) or a voice assistant, to control it from anywhere.

Adjustable lighting.

You can adjust both the intensity and temperature of the light (from the warmest to coolest tone).

Open Suite

The hood system that embellishes your kitchen.

Available in both the wall-mounted and island version, this hood is capable of furnishing the space above the hob with a modular and customisable design.

Design and versatility.

You can design your own layout to match the style of your kitchen, choosing among extraction units, light panels, and shelving available in a wide area of finishes.

Wi-Fi Connectivity.

This hood is Wi-Fi enabled for use with the Elica app (to monitor the condition of the filters and contact our service centre) or a voice assistant, to control it from anywhere.

Adjustable lighting.

You can adjust both the intensity and temperature of the light (from the warmest to coolest tone).

Long life filters.

These regenerable filters last up to 3 years, reducing waste and impact on the environment.

PIANI ASPIRANTI

NikolaTesla Unplugged

All at your fingertips.

This is Elica's extractor hob featuring ergonomic, fixed click-release knobs, for a highly intuitive control of all its features.

Eye-catching design, ergonomic knobs.

Analog control, knobs with an extraordinary grip, and bold aesthetic character are what makes the design of the appliance stand out.

Automatic cooking functions.

These features allow you to enhance slow cooked meals; melt ingredients without constant stirring; adjust the heat to prevent water from boiling over. You can also activate two adjacent cooking zones for cooking in larger pots and pans.

Self-adjusting extraction.

The powerful extraction system automatically switches on and adjusts the power levels based on the cooking zones in use. And it switches off automatically once the air is clean.

Innovative motor.

The cutting-edge motor ensures whisper-quiet operation and reduced energy consumption. It boasts a class A++ energy rating, amongst the highest on the market.

Latest-generation filter.

An innovative solution that combines excellent grease, odour and moisture filtration capacity.

NikolaTesla Switch Glow

Extraction core, all black.

A perfect blend of contemporary design and maximum performance. The induction and extraction systems activate with a simple touch.

Design and functionality.

The balance between style and performance is reflected in the sophisticated design of the central flap.

Automatic cooking functions.

These features allow you to enhance slow cooked meals; melt ingredients without constant stirring; adjust the heat to prevent water from boiling over. You can also activate two adjacent cooking zones for cooking in larger pots and pans.

FORNI

Virtus Combi 645 TFT

Superpowers in a compact form.

This 60×45 cm oven is equipped with a TFT colour display and functions that can be combined as you wish. So you can cook exactly how you want to.

Total black design.

Glossy black glass, stainless steel cavity, triple-glazed door: this oven is sure to be a star in any kitchen.

Cooking modes: traditional, steam, microwave or combined.

Each cooking mode can be used individually or combined by choosing: Traditional/Steam, Traditional/Microwave, or Steam/Microwave.

High-performance functions.

The grill, moisture control, and probe to check the internal temperature of food allow you to achieve perfect cooking results.

Extended warranty and easy maintenance.

Quick and easy hydrolytic cleaning. Extended 7-year warranty.

Virtus Multi P 60 TFT

The unparalleled oven.

A pyrolytic oven providing high performance and total temperature control, even at its highest setting (320°C).

Design: minimalist and captivating.

Glossy total black glass, simple lines, user-friendly interface: this oven elevates any type of kitchen.

Self-cleaning.

This oven is pyrolytic so it is self-cleaning. The cleaning cycle is automatic.

Cooking features and control, inside and out

This oven is equipped with a probe to monitor the internal temperature of food. It allows you to control the moisture level for dry or moist-heat cooking. It delivers perfect results, even at its highest temperature of a remarkable 320°C (perfect for baking pizza).

Class A+ rating.

An oven that lets you save on energy, even when it's on the highest power setting.

Virtus Multi 60 DD

The oven that makes life easier.
In style.

The aesthetic value of this oven goes hand in hand with its unparalleled user-friendliness and outstanding energy efficiency.

2023 Archiproducts Design Awards.

A prestigious international award for this oven, meticulously crafted down to the very last detail. The floating knob, digital display, and total black iconic lines enhance the aesthetics of every kitchen.

Perfect Heat.

The heat management system, even at the highest temperature (300°C) adds to the performance of the Static, Convection, Grill and Intensive modes. The high temperature is perfect for baking pizzas in a shorter amount of time. The stable internal heat ensures that food is evenly cooked both inside and out.

Extended warranty, simple to clean.

With the hydrolytic Eco Clean function, it just takes a few simple steps to achieve a thoroughly clean oven cavity, without wasting energy. Extended 7-year warranty.

Insulating and wear-resistant materials

The outstanding performance of this oven is guaranteed by the exceptional insulation of the cavity and by the special wear-resistant materials.

Class A+ rating.

The oven that lets you save on energy, even when it's on the highest power setting.

PIANI INDUZIONE

Ratio 874 Plus

Super flexible, automatic, slim.
In 90 cm.

This is the induction hob featuring an innovative shape and performance, which becomes a star and ally in every kitchen.

Sleekness, in black.

Total black glass, linear serigraphs, slider control: engineered simplicity in a look like no other.

Heat control, with a simple touch.

Simply move the pot from one cooking zone to another and the hob activates the pre-set power levels.

Advanced cooking functions.

They allow you to enhance slow cooked meals; melt ingredients without constant stirring; adjust the heat to prevent water from boiling over. You can also activate two adjacent cooking zones so you can cook in larger pots and cookware. The extreme power brings water to a boil in just a few minutes.

Slider touch control.

It manages the controls of each cooking zone to switch on, adjust and switch off all functions.

CANTINETTE

Veritas BI36

A genuine wine cellar,
in your kitchen.

This is Elica's wine cooler that stores up to 36 bottles, even your most prized ones. It ensures that humidity, light and temperature are always kept under control.

Minimal in design, maximum in capacity.

This generous-sized wine cooler with its simple lines, features a transparent door and black glass surfaces.

Extended warranty.

Extended 7-year warranty.
